 +\*The three "D"s on this stone were  
 engraved backwards.

The numbers of the stones are grouped below and on the following pages according to the row in which they appear. Stones are situated in numerical order inside each row unless otherwise indicated.

The direction of the numbers changes at the first intersecting road after the main entrance. This is to reflect the change in the direction of the stones. Those from 1 to 1161 face, for the most part, away from the entrance. Those after 1161 face toward the entrance.
