INTRODUCTION

If has been our attempt in compiling this book to record as accurately as possible the tombstone inscription of the cemeteries of northern Ste. Genevieve County, Missouri. Volume 1 and 2 of this set contain the tombstone inscriptions for the cemeteries of the city of Ste. Genevieve.

The stones have been numbered in the order in which the information was collected. These numbers are also used on the maps. An alphabetical listing by surname can be found at the back of the book.

A single dash, as in #28 on page 1, indicates a space on the stone which has yet to be inscribed. A series of dashes, as in #64 on page 19, indicates an inscription which has weathered too badly to be read. Information appearing in parentheses usually provides information which did not appear on the stone, but is necessary to identify the person completely.

This listing contains the stones which were standing as of the fall of 1984, some 1985 stones may also be included.

The map below gives the approximate relationship of each stone to those nearest them. For the location of the cemetery itself see page 20c.

 to Highway 61

When standing in the parking lot facing the cemetery, the church building is to your left.

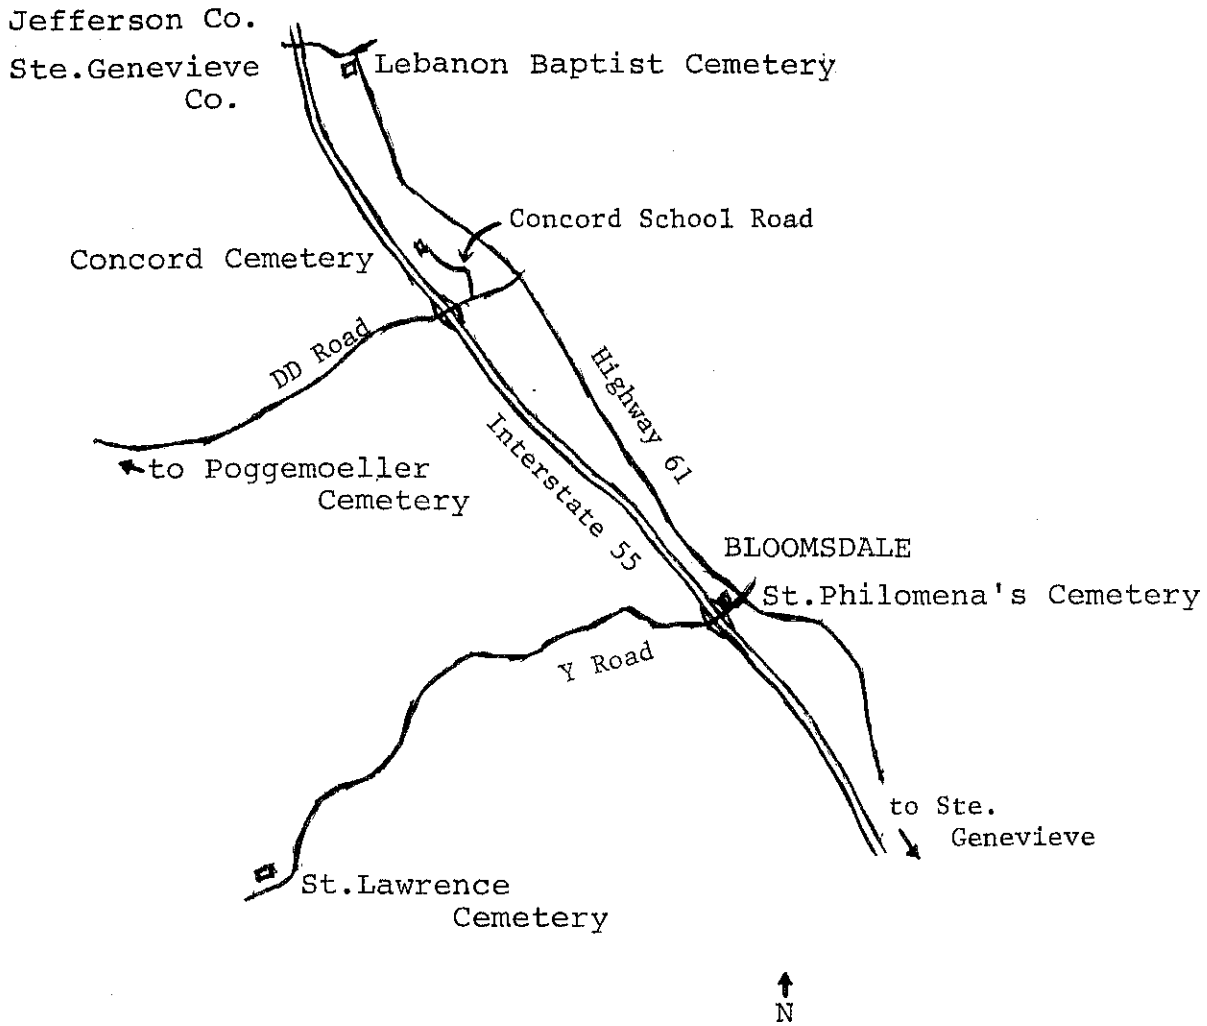

The map below indicates only the row in which each stone can be found, and not the relationship of stones in different rows to each other. To find a particular stone, first locate either the first or last stone in the row and walk toward the center of the row.

row #	fence	
1	1*	through 16
2	17*	through 27
3	28*	through 45

gate

Since not every row continues for the entire length of the cemetery, each row has been marked above with a (*) to indicate the end of the row which begins nearest the fence, and would therefore be easier to find. There is also a bow in the cemetery (each ends bends toward the entrance).

For the location of the cemetery itself see page 20c.

The exact location of the Poggemoeller Cemetery has not been given, because it is located on private property.
