INTRODUCTION

It has been our attempt in compiling this book to record as accurately as possible the tombstone inscriptions of the cemeteries of central Ste. Genevieve County, Missouri. Volume 1 and 2 of this series contain the tombstone inscriptions for the cemeteries of the city of Ste. Genevieve. Volume 3 covers northern Ste. Genevieve County including Bloomsdale. Volume 4 covers the east central part of the county, including Zell, Ozora, and Minnith.

The stones have been numbered in the order in which the information was collected. These numbers are also used on the maps, which follow each cemetery's listings. An alphabetical listing by surname can be found at the back of the book.

A single dash, as in #124 on page 4, indicates a space on the stone which has yet to be inscribed. A series of dashes, as in #131 on page 7, indicates an inscription which has weathered too badly to be read. Information appearing in parentheses usually provides information which did not appear on the stone, but is necessary to identify the person completely. Many of the long German inscriptions, which appear beneath the vital statistics, have been listed simply as (German inscription). A asterisk * appearing after a name or date indicates that the information has been printed exactly as copied from the stone. This has been used when there are alternate spellings of last names, misspelled or oddly spelled first names, etc.
